

Healing Support for Hawai'i's Youth

Grief *at* School

Free workshops designed to help educators identify and help grieving students. Break through strategies to teach and counsel youth who have lost a loved one.

Sooner or later, a death of someone will affect every school. Any death is emotional and disruptive for an adult; it can be devastating for a child. Grieving students may experience a number of symptoms, including behavior problems in the classroom, a drop in grades, emotional and social withdrawal, and in severe cases, substance abuse.

Workshops can be customized to meet the ages of the youth with which you work. To schedule a workshop, please call 969-1733.

Community Grief Support for all Ages

Hospice of Hilo offers grief counseling, support and education for anyone who is grieving or anticipating the death of a loved one. Individual counseling and group support is available. For individual appointments, group schedules, or more information, please call us at 969-1733 or visit us online at www.hospiceofhilo.org.

HOSPICE of HILO
PARTNERS IN HOPE, SUPPORT AND COMFORT

It is our mission to be an integral part of the community, providing compassionate, quality end-of-life care through support, counseling and education.
